## PROFESSIONAL SUMMARY

Software developer experienced in internal business systems, automation, and commercial operations solutions. Full-stack development using Go (Chi), React, TypeScript, PostgreSQL/Supabase, and Docker, with involvement in system architecture, integrations, and CI/CD. Founder of A-NFC, a company delivering custom digital solutions. Currently pursuing a Bachelor's degree in Software Engineering.

## TECHNICAL SKILLS

**Backend:** Go (Golang), Chi | **Frontend:** React, TypeScript | **Databases:** PostgreSQL, Supabase
**Infrastructure:** Docker, CI/CD | **Focus:** Full-stack development, software architecture, integrations, AI and automation

## PROFESSIONAL EXPERIENCE

### Founder | A-NFC • Sep 2026 – Present

Founded and manage a technology company providing custom digital solutions, including websites, landing pages, web applications, and tailored software, with an emphasis on user experience, performance, and business needs.

### Software Developer | Grupo Royalty (Mansão Green) • May 2026 – Sep 2026

Developed and improved internal systems for operational management and sales performance tracking. Worked across the stack using Go (Chi), React, TypeScript, PostgreSQL/Supabase, and Docker; contributed to system architecture, integrations, CI/CD, and ongoing internal product development.

### Contingency Operations Assistant | Mansão Green • May 2025 – May 2026

Monitored operational requests, verified registrations, supported mobile line regularization, updated systems and spreadsheets, and identified data inconsistencies.

### Production Assistant | Grupo LemosPassos • Dec 2024 – Jul 2025

Supported production activities, quality control, materials organization, and the achievement of deadlines and operational targets.

### Sales Assistant | Natura • Jan 2021 – Mar 2025

Provided customer service and sales support, managed customer relationships, tracked orders, supported after-sales activities, and promoted products through digital channels.

## EDUCATION

**Bachelor of Software Engineering** — UNIFAN (Centro Universitário Nobre)
Mar 2024 – Dec 2027 (expected, as listed on LinkedIn)
